

Admission to the Research Library of Tomsk State University

In the day hours, you may enter the Research Library with a Reader Card scanned at the checkpoint on the ground floor of the new library building.

If the scan shows that the library services are suspended, please contact the Reader Registration Service to learn the reasons.

In days (hours) when the Reader Registration Service does not work, you may enter with a one-time Reader Card issued by the security staff member. If you want to get in with books received from the library before, you should take a permission ticket from the security staff member and produce it at the exit.

You should leave outerwear, large-sized and sports bags and backpacks in the wardrobe. You can take other bags, briefcases, backpacks, as well as laptop bags to the library, but you will have to show their content to the security staff member at the exit.

Note! Visitors to the Book Museum must leave outerwear and all bags, briefcases, backpacks and non-transparent bags in the wardrobe.

In the night hours (from 9:00 pm-9:00 am) the library is open:

- for TSU and SSMU students, post-graduate students, teachers, and staff with a Basic Reader Card;

- for general public users with an Optimum Reader Card.

The card is scanned at the entrance to the 24/7 Information Centre.
